

: The Little Inn

In a small inn - far, far away - do Mr. Brown consider to implement a software system. But before that, the owner find it to be important to define roles and responsibilities for the staff :

- the servant,
- the chef,
- himself

: The Little Inn

The Chef do only cook.

The Servant serves and can cook.

Mr. Brown supervise, can serve and cook.

Mrs. Brown takes care of Bed & Breakfast rooms

Mr. Brown can assist Mrs. Brown

(especially when he is told to do so)

Mrs. Brown are not involved in the Inn,
although the breakfast is served there.

: The Little Inn

Vision

Mr. Brown and his staff want more customers, either :

- to stay there for longer and/or
- to eat at the Inn more often

To obtain this they will give an flawless service and they expect at least the same from the software.

continue ...

: The Little Inn

Vision ... continued

The software is expected to take care of :

- working hours for staff
- commodity storage
- room reservations
- meal orders
- recipes

The Little Inn

Exercise 1 :

Line up all request to the software.
